- **Technical Data Sheet (TDS) For Polyethylene Laminated Air Bubble Film With Foam**

Property	Value
Product Name	Polyethylene Laminated air Bubble Film (Single Layer)
Common Name	Laminated air Bubble
Product Type	Packaging and Protective Material
Chemical Composition	Low-Density Polyethylene (LDPE) molded into a bubble shape With Foam Wrapping
Appearance	A single layer of polyethylene film of air bubbles with foam wrapping from one side
Color	Transparent, but can be customized in other colors upon request
Standard Width	150 cm
Roll Length	50 meters to 100 meters (available upon request)
Bubble Diameter	10 mm
Bubble Height	4 mm
Primary Uses	Wrapping and protecting fragile products, void fill, thermal insulation, surface protection from scratches and impacts, box and bag lining
Key Features	Lightweight, moisture-resistant, flexible, recyclable, provides good protection against shocks and vibrations at an economical cost
Storage Conditions	Store in a dry, cool place away from direct sunlight
Safety Precautions	No known health hazards. Can be disposed of as recyclable plastic waste.
